

# Prices

Unlike some practices we are not charging extra for the Personal Protective Equipment (PPE) required for treatment.

We have also invested in the latest virus killing air-filtration system. It's called Radic8 and is installed throughout the building.

At WeLoveTeeth we remain committed to the highest quality dentistry in the safest environment possible.

Some prices may vary as treatment is tailored to individual needs. That is why we sometimes quote a 'from' price.

Your dentist or hygienist will explain all of the treatment options available and provide a detailed breakdown of the cost, before treatment begins.
